

Dear visitor,  
as the newly elected president of the Fishermen Cooperative of Tortoli, I am delighted to welcome you to our facilities and to the various activities that are related to our fishermen association.

The sea has always played an important role in my life. Ever since I was a child, making me discover new things. Moments filled with joy and companionship, right up until now, as an adult, still making discoveries but with the knowledge of all these years vibrating in me with the same passion as back in the days.

Even the hardships of working in fishing, with all the tiredness that comes with the trade, has always been an unique experience that made me grow both as an individual as well as a professional.

This land, this lagoon and the relationship with the local population made it possible to make way for an enormous and important opportunity for sustainable economic growth that propels and develops the local community as well as the whole region.

It is this opportunity and this chance for growth that I would like to dedicate all of my attention to. That we maintain developing new ways and techniques in the name of better safeguarding the environment and regional employment. This all in a concrete and tangible way that will take us into a better future.

I would like to invite you all to come and visit us and take advantage of our many offers, I am sure that each and every one of you can get involved. Families, people that love to fish, from the elderly to the children, we are happy to guarantee an educational experience about the environment, the sea and the many gifts it grants us every day. Since 1944, this Fishermen Cooperative has promoted and brought forth basic norms and values that have inspired me all of my life and that have filled me with pride ever since. The history of the cooperative is a universal heritage that we share together, a treasure that I use on a daily basis to appreciate the work of all those people that have contributed to create this little, but oh so very amazing corner of the world

In our facilities you will find hospitality, quality, modernity and the proposition of a variety of services. Catering, Sporting events and all kinds of Cultural Events. All these types of events are catered by us so that you can enjoy fantastic times and create unforgettable moments.

My commitment is to harmoniously coordinate every aspect of the Cooperative's actions and events, always promoting and creating opportunities for people to recreate and relax. This all in the name of fine dining at 'zero kilometers'. Furthermore my wish is that, also for you, the meeting with our community is one of moments of deep reflection. Reflections on what makes this workplace, which has its roots in a solid history, a place of exchanges and well-being for everyone in brotherhood.

I will be pleased to meet you and guide you through your experience here with us in the lagoon.
